Damage Claim.

By Associated Press.

WASHINGTON, July 15.—Germany in an official memorandum transmitted today from Berlin by Ambassador Gerard, admits that the American steamer Nebraskan was torpedoed by a submarine; expresses regret and readiness to make reparation; and attack "was not meant for the American flag, but is to be considered an unfortunate accident."

Secretary Lansing made public the German memorandum, which disposes of the question whether the Nebras kan was struck by a torpedo or by a mine. The German memorandum closes the incident, it was said, except as to the payment of damages The State Department made this announcement:

"Ambassador Gerard has telegraphed to the State Department the following memorandum from the German Foreign Office relative to the damaging of the American steam. er Nebraskan by a German subma

"The German Government received from newspaper reports the intelligence that the American steamer Ne-braskan had been damaged by a mine or torpedo, on the southwest coast of Ireland. It therefore started a thorough investigation of the case without delay and from the result of the investigation it has become convinced that the damage to the Nebraskan was caused by an attack

and by Thurston Farrar, teller at the National Bank of Commerce, who was with her in the machine at the time of the accident, appeared at the inquest early. She was clad in white, with a touch of yellow here and there, and appeared to be extremely nervous. Witnesses Had Attorneys. Shortly after she appeared came Mrs.

eamer, who was with Bright when he was killed, and Mrs. Miller, who, with dorten, was a witness to the accident. Miss Thacher did not take the witness stand until nearly all the other witnesses had testified. She said that she was driving her car north on King's highway and attempted to make a large turn west on Washing-ton. She declared she was about 40 feet away when she first saw Bright and Mrs. Reamer, who were crossing Washington on the west side of King's highway. They were about in the middle of the street, she said.

Couldn't Remember About Alarm. She said she could not remember hether she sounded an alarm or not, but that four lights were burning on the front of the machine. She tried to go behind the couple, she delared, but the woman darted back in the direction from which she had ome. She then swerved the car to he right, where it struck Bright. In answer to questions she said she had been driving the same car for three years. Mrs. Reamer testified that she and Bright were walking toward Delmar oulevard and that when they reached

Washington they stopped to let one vestbound auto pass them. They looked up and down and, seeing no other ma-chine, started to cross. When they Reamer says she saw a car turning he corner at "tremendous speed." Said No Horn Was Sounded.

She ran back, she said. She didn't think Bright saw the car. When it hit him he cried, "O, Maude, I'm hit." The impact rolled his body "over and over," ccording to the witness. She declared o horn was sounded and that the car eemed to be taking a sigzag course. Morten testified that he and Mrs. Mil-ler were about 60 feet back of the other ouple. When he ran up he said he aw Bright lying on the road about 50 leet west of King's highway and Miss Thacher's machine had stopped about 00 feet west. Farrar, who lives at 4020 Laclede ave-

nue, and who was in the front seat with Miss Thacher, said there was no speeds meter on the car, but he thought it was not going more than eight miles an hour. John Staed, traffic policeman at the corner, said Miss Thacher was not omed to drive in that part of town. Most of the witnesses agreed the corner was not well lighted, and told of Bright's efforts to dodge the car, and of Miss Thacher's efforts to dodge both drs. Reamer and Bright. Most of them greed that Bright was dragged about 25 feet, but their opinions varied as to the distance in which Miss Thacher topped after hitting Bright. Some said he stopped within 40 feet, and other hought it was about 60 feet.

The other witnesses were Mrs. Mil-ler, William Chrismer of 1396 Shawmut place, Leon J. Sqhwab of 5106 Washing-ten boulevard, George W. Milius of 5143 Westminster place, William C. Hunter Jr. of 776 North Euclid avenue and Dr.

MANY BOYS MAKING KITES FOR CITY PLAYDAY CONTEST

nation Trials Will Be Held Next Wednesday at Each of 18 Playgronuds.

More than 300 boys are making kites of various sizes and types for the kite-flying contest at the Fairground as a part of the municipal playday exercises July 24. The elimination contests next sday will be held in each of the 18 playgrounds, and each ground will b entitled to have one representative in the Fairground flights. The director of each playground will name the representative, basing his choice on the bes kite submitted. The kites will be judged for their workmanship, flying ability, weight and size.

In the playday flights, each contestar In the playday flights, each contestant will be given two balls of string after he is assigned a position on the field. The winner will be the boy who first gets his kite in the air to the length of the two balls of string, and gets it down again without mishap.

The winner of the contest will be en-

titled to a count of 1 point in the race for the municipal kite-flying pennant at the close of the season, which now is being contested. Gamble Playground won the kite-flying match last year.

ST. LOUIS FRENCHMEN RAISE FUND FOR WAR SUFFERERS

vance Last Night of Anniversary of Fall of Bastile.

The French Society of St. Louis com emorated the anniversary of the day of the rebirth of France at Cafferata's Garden, last night, by devoting its energies to raising a fund for the war the custom in former years of the French Society of St. Louis in its annual fourteenth of July fete, was per rilted by the organization.

Gus V. R. Mechin, president of the

society, explained that any sort of a pollification would be cruel in view of the fact that so many French families ere in mourning for sons lost on the battlefield. Not even the tricolor of France was exhibited, nor the Marsellloise, the national air of France, sung or played by the orchestra.

The army officers of the allied coun tries who are on missions in St. Louis were not invited. President Mechin were not invited. President Mechan warned the guests that, being Ameri-cans, they should not permit their love fatherland in its present struggle to lead them to do anything that might in any way violate the spirit of the neurality of the United States, or hurt the feelings of any citizen of this

He referred briefly to the sympath; and assistance rendered the colonists of this country in their fight for indeendence by France, and declared that France had always been in the front ank of nations and never had dishonred herself or her flag by the violation ored herself or her flag by the violation of the well-established principles of civilization and humanity. lization and humanity.

Brief speeches also were made by Alexander N. de Menil and Marc Se-guin, Consul of France and Belgium. De Menil made a reference to the Eusition which France has occupied in this great struggle would lead to the lemocratization of Europe and to the building of a republic in the domains of the German Empire. He said that he regarded talk of peace at this time as inopportune, because peace now would mean that Europe would again be drenched in blood in a few years.

In the interest of civilization, humanity, independence and the respect of treaty rights the war should be continued to its bitter end, he asserted. France was now fighting on the baswould be a mistake to bring the contest e an end until the war menace of Europe was destroyed. Consul Seguin poke briefly in French.

CRITICISES DELAY IN LUSITANIA CASE

former Ambassador to Germany State Department to Send Note Fears Long Parley Is Hurtful to Nation's Prestige.

BOSTON, July 15 .- David Jayne Hill. at North Cohasset, today gave his sion of the Lusitania "controversy" a statement. He said:

"There are occasions when silence and prolonged negotiations are not only humiliating but fatal to the prestige and future influence of a nation.

"The Lusitania controversy-for this s what we have permitted the inciden o become-involves only two points: "1. Was the sinking of the Lusitania accordance with the accepted rules of international law, or was it not? "2. Does the Imperial German Goverment maintain its right and intention to disregard those rules in its treatment of the citizens of a neutral and friendly country, or does it not?

Action Based on Answers. "Upon the answers to these two questions depends the course that should promptly be followed. If the Imperial German Government accepts the rules in question and intends to observe them, the controversy would end the moment that assurance was given and responsi-

bility admitted. "On the other hand, if the Imperial German Government does not intend to ecognize the existing rules of internaional law in a matter of such gravity. but continues to act, and maintain its right to act, in defiance of them and to reate for liself the law of the sea, it would be difficult to regard the friendly rofessions of that Government as sincere. In that case, it would be an act of insincerity on the part of the United States also to accept such affirmations of friendship, and above all, to express sentiments of confidence and amity in

"A frank and ready answer to these uestions night reasonably be expected

Duty Should Not Be Encumbered. "It could not, of course, be reasonably demanded until the questions were asked, but cace directly asked and directly answered both countries would be relieved of an embarrassing situa-tion, for both would then know what was expected and what would be accorded in the interest of a friendship that is at least exposed to a serious test. Until an answer is given, mere assertions of friendship and the dis-cussion of minor questions on either side only serve to obscure the vital issue, which some day must be squarely met. A question of international duty should never be encumbered by the pos-sible consequence of a right decision."

Former Senator Would Withdraw
Ambassador From Berlin.
PASADENA, Cal., July 15.—Advocating he withdrawal of the American Ambasador from Berlin and the handing of his passports to the German Ambassador at Washington, former Senator George Franklin Edmunds has sent to

President Wilson a letter of comment on the lates! German note. Ex-Senator Edmunds, who is 87 years old, has been one of the most prominent figures in the Republican party. He was a member of the Senate from Vermont from 1866 to 1893, and was twice a candidate for the presidency, receiving 34 votes in the convention of 1880 T and 93 in the convention of 1884. He is the author of many important laws, including the Edmunds act for the suppression of polygamy in Utah and the disfranchisement of those who practiced it. He was also part author of the antitrust law of 1890. His communication to President Wilson is as follows:

"The German reply to your second protest and remonstrance against the inhuman and barbaric destruction by submarines of the lives of many peacesubmarines of the lives of many peace-ful citizens of our country, as well as those of the civilian citizens and subects of countries against which Gernany is carrying on an aggressive war, having been at last received. I beg to say, as one of the 95 per cent, as I think, of the grown-in and think, of the grown-in and the say. people of our country who have gladly supported your efforts to mitigate the intrinsic evils and horrors of so-called civilized warfare and to defend our citizens in the exercise of the long-estab-lished rights of neutrals, that the reply is, in my opinion, in substance an at-tempt to justify, or else to evade responsibility for, all the slaughter of our civilian citizens which has knowingly been committed. Thus, the most grave situation plainly stated in your comnunication remains just what it was,

"Were not the German Government so full of 'kultur' and, therefore, as it hinks, so logical, I should suppose that it was trying upon you Fabian or Chinese tactics, which I feel most strongly this nation should resent.

"Let us then cease futile correspon-dence and withdraw our Ambassador and send the German Asbassador his

TRADE NOT EASY FOR U. S. TO GET

Book by Man Who Spent Many Years There Points Out the Difficulties.

Since the outbreak of the European var there has been an organized movenent in the United States to develop export business to the Latin American republics, particularly to the South American countries. Before the war England, Germany, France and Italy, for nany years, had almost a monopoly of he South American business. The European countries poured their surplus money into the Latin-Americans for the levelopment of their railroads and inlustries, had well established banking and steamship facilities, and other advantages which made it difficult for the exporters of the United States to enter successful competition for that

With Europe straining every nerve to finance its great war, and with its industries paralyzed, the American exporter sees an opportunity for the development of business in the Latin-Americas without having to meet European competition. The American exporters and manufacturers have accepted the theory that the Latin-American business would be very desirable, but they have not yet perfected plans for getting A few branches of New York nanal banks have been established in two of the large Latin-American cities, and ere has been some activity in the derelopment of steamship lines to ply beween ports of North America and hose of South America.

Book on South America. Just at a time when the American pubeagerly seeking information bn ow to develop South American markets, Small, Maynard & Co. has issued a book writen by W. E. Aughinbaugh, who has lived and sold goods in the Latin-American countries for 18 years. The book is published under the title, Selling Latin America."

The author points out that the first thing for the American manufacturer eeking a Latin-American market to do is to find out whether his goods meet the requirements of the people. He said he had met salesmen from the United States trying to sell snow plows in Brazil, where it never snows, and knew of another manufacturer wasting money advertising canoes in a district of Arzentina in which there is no water. The first thing that should be done, he says, is for the firm seeking South american business to send one of its leading officers on a tour of the countries to study the demands of the peopla. After this is done the selling cam

It is useless to send a salesman to outh America to sell goods who speaks only English. The language of all the is Spanish, and there it is Portuguese. The salesman should be able to speak either Spanish or French, nearly all of the business people, especially in Brazil, being able to speak French almost as well, and sometimes better, than their

He should reember that his prospective customer will assimilate an amount of flattery beyond belief, and in writing his letters, he should forget his American idea of conciseness. He must fill his business letters with sentimental allusions to past ages, and instead of ending with the terse, "Yours very truly," should always sign yourself, "your attentive and secure servant who kisses your No traveling man should be sent from

He should be careful about drinking South carry a supply of distilled water from the United States, and he should also exercise great care about his eating. He should not drink any kind of liquors. The American exporter must expect to meet great difficulties in the matter of of different kinds of charges, fees, tar-iffs, taxes and incidentals that must be met unless the salesman wishes to have his goods confiscated and himself fined and imprisoned. Aughinbaugh declares that the grafting politicians of Ameri-can cities are an honest lot as compared with the customs officials of the Latin-American republic. He tells of one instance where a local druggist ordered 100 clinical thermometers, which, under the law, were to be admitted duty free. The customs official, however, classified them as etched glass containers, because of the mercury in the tubes, and assessed \$500 against the merchant, which, with the tax, amounted to \$642.50, which the merchant had to pay or go to jail. Another man was fined \$100 for falling to state whether his pickles were put up in mustard or vinegar, and another had to pay \$50 on a five-pound box of candy, intended as a gift, because the ingredients of each separate piece of candy were not stated. The of the customs houses also make a prac tice of stealing from the packages, and here is no chance for redress against

How to Make Your

Better than all the so-called "hair tonics" in the world is a simple old-fashioned home recipe consisting of plain Bay Rum, Lavona (de Composee) and a little Menthol Crystals. These three, mixed at home in a few minutes, work wonders with any scalp. Try it just one night and see. Get from your druggist 2 oz. Lavona, 6 oz. Bay Rum and 6 drachm Menthol Crystals. Dissolve the Crystals in the Bay Rum and pour in an 8-os. bettle. Then add the Lavona shake well and let it stand for an hour before using. Apply it by putting a little of the mixture on soft cloth. Draw this cloth slowly through the hair, taking just one small strand at a time. This cleaness the hair and scalp of dirt, dust and excessive oil and makes the hair single stone the hair felightfully soft, lustrous and fluffy. To top the hair from falling and to make it grow again, rub the lotion briskly into the scalp with the finger tips or z medium still brush. Apply night and morning. A few days use and you will not find a single loose or straggling hair flet in the scalp with the finger tips or z medium still brush. Apply night and morning. A few days use and you will not find a single loose or straggling hair and ifohing cease. You will find fine towny new hairs sprouting up all over your scalp, and this new hair will grow with wonderful rapidity.

Any druggist can sell you the above. The prescription is very inexpensive, and we know of nothing so effective and certain in its result.—ADV.

Carranza Says His Party Is Trying to Put Great Democrat's Principles Into Practice.

WASHINGTON, July 15.—A train between Vera Cruz and Mexico City has been wrecked by a bomb near Apizaco. The explosion killed and wounded many persons. A cablegram from Vera Cruz to the State Department says it is uncertain whether the train left Vera Cruz July 12 or July 13. The railroad has

VERA CRUZ, July 15 .- Asserting that the Constitutionalizts are endeavoring to establish in Mexico a government along the lines advocated by Thomas Jefferson, and comparing President Wilson to Jefferson, Venustiano Carranza, first chief of the Constitutionalists, has given an extended interview which is regarded here as a bid for recognition of the Constitutionalists by the United States. Gen. Carranza pointed to the reoccupation of Mexico City by the Constitutionalists and his plan for an order ly government there, as the basis for

American support.
"We feel that we are entitled to the sympathy of the American Government in all we are trying to do," said Carranza. "We have such faith in the democratic purpose of President Wilson that we are confident he will give to the tutionalist party his whole sup-

"Mexico City will, of course, be the official activities will be transferred here at the earliest possible moment Everything possible will be done to ransform Mexico City into a peaceful, rderly and business-like community. I shall strive to win the confidence of foreigners living there, and in so doing obtain their co-operation with the

Mexicans in giving the new government the support which is essential to the success of the republic." Gen. Carranga said that in due court would call an election for Congressmen, that he would make a report to the Congress and that Congress would issue a call for an election of a Presi-

dent to supersede the provisional Government. The new Government, he added. would grant amnesty to all persons except those guilty of crime.

Friendly Toward Red Cross. As to his attitude toward the Red Cross, Gen. Carranza said it was friendly. He declared he never had claimed there was no suffering, but that he felt that supplies should be sent to towns indiscriminately. In Vera Cruz ering and the people felt offended be-He said he would be glad to give safe conduct to any supplies forwarded by the Red Cross and distributed in coeration with the Government, although the Government already had contracted

Gen. Carranza also promised supervi ion of outlawry and religious freedom to Catholic priests. He added that he desired to cultivate friendly relations with the United States.

Is This Car Too Good to Sell For \$1550

THIS is a strange story but a true one. Last winter we were approached by representatives of foreign governments with reference to purchasing the Chalmers Six-48 chasses for ambulance use

Knowing that we could not build all the motors in our own shops and take care of our regular production in addition, we went to one of the largest builders of motors in this country and asked them for a bid on these motors.

In submitting the bid their representative said, "We want it distinctly understood that this is not for the same quality of motor because we do not work to such close standards or limits as you do."

Quality Not Only a Slogan

This gentleman went on to say "The motor you delivered to us to bid on surprises us. It is good enough to go into any \$4000 or \$5000 car."

"It is the finest motor in material and workmanship we have ever seen.'

"We are frank to say that we have never turned out a better motor even for higher priced cars, and we know of no company in your price class that is turning out a motor with such high-class workmanship."

"The wonder to us is that you can sell the car at your price (then \$1725 and now only \$1550 for exactly the same car) and spend so much money on making it."

Quality a Business Principle

Understand this concern is a thoroughly reliable concern and builds good

They upheld their own workmanship and material against any other motor builder-us included.

But they were honest and stated to us at once that our standards were higher than they thought necessary.

Without the slightest reflection on these friends, we tell this exactly true story to illustrate what we have always contended, and that is that "Chalmers Quality is not only an Advertising Slogan; it is a Business Principle."

We believe that it will pay to keep it

We Sell All Who See

And that is also probably the reason why we can proudly boast that we have never failed to sell a prospective purchaser who went through the Chalmers factory and saw our cars made.

Examining the surface of a motor car or even the chassis means little even to the expert.

But when he goes through the factory and watches the processes of making, even the layman can see the difference which this motor manufacturer refer-

Why Not Beauty Too?

There is nothing more beautiful, Madam, than a Chalmers in dark blue body with red wheels and its distinctive body lines and molded oval fenders.

Add to this the Performance the husband demands and there's nothing left to desire in a motor car.

ILLINOIS TAXPAYER

Secretary of State and Auditor Included as Defendants by J. B. Fergus. "

SPRINGFIELD, Ill., July 15.-The taxayers' suit fifed against Andrew Rusel, State Treasurer, in this city last riday by J. B. Fergus, is amended a bill filed here today by Fayette S. Munro, attorney for Fergus, to include as defendants Lewis G. Stevenson, Secetary of State, and James J. Brady,

The amended bill seeks to enjoin the last Legislature in deficiency bills, passage of which it is charged was contrary that this contention is upheld, asks that any of the defendants who may have nade payments on authority of these appropriations be compelled to make res-titution. In addition the bill requests that Brady and Stevenson answer a se ies of interrogatories dealing with the ppropriations

Three deficiency bills not listed in the riginal bill, which attacks the validity \$1,800,000 in appropriations are named the amended bill as follows: Senate bill 3-Incidental expenses Gen

ral Assembly, \$10,000. Senate bill 4-Salaries of employes

Senate bill 5-Incidental expenses Sec retary of State, Forty-ninth General ssembly, \$15,000 As to the appropriation for the inci dentals of the Department of State the

mended bill recites:

"Your orator further represents and charges that Senate Bill No. 5 appropriates money to the Secretary of State hamer and Zettwock obtained, as they tained no control to the incidental expenses of the Fortyninth General Assembly: that there had reviously been appropriated, pursuant o law, by the Forty-eighth General Assembly, funds for the expenses of the Forty-ninth General Assembly: that the real purpose of the said appropriatio was to secure for the members of the General Assembly additional benefits and perquisites and extra perquisites for the Secretary of State; that said Senate Bill No. 5 duly passed the Senate and House and was approved by the Governor; that the Secretary of State ereupon proceeded to purchase at a large expense jack-knives, pocket books fountain pens, brushes, combs and other toilet articles and to distribute the same mong the members of the Forty-nint

This, the bill alleges, was unconstitu ional and illegal because the Constitution and laws of the State provide that members of the Assembly shall receive "\$50 per session in full of postage stationary, newspapers and all other in idental expense and perquisites.'

Blackwell's Warden Also Admits Making the Men Sleep on Watercovered Stone Floors.

NEW YORK, July 15 .- During a revof conditions in Blackwell's Island penitentiary, made before the State Prison Commission yesterday, Warden Patrick Hayes admitted: "I did turn a 50-pound pressure hose on some prisoners in their cells. I did make them sleep on their blankets on the stone floors of those cells afterwards. There wasn't four inches of water in the cells, but they were undoubt-

edly damp. "The men were beating at their cell doors with iron buckets. If it occurred right now while you gentlemen are here I'd do it again. I ain't done it since; that cured 'em.

"You can't go alone into a man's cell when he's got an iron bucket and take him to the cooler. To get the excite-ment out of him there's nothing like old water."

Members of the commission last night haracterized Blackwell's Island as "the most repressive prison in the State." They made known their intention of aving many elementary reforms inseltuted at once, of razing the entire plant as soon as possible and to remove those esponsible for the brutalities charged

License Application Based on Fact Grover Cleveland Building Has Not Been Opened.

William Kaeshamer of 5452 Alabam: venue and Andrew Zettwock of 2730 Gravois avenue have applied to Excise Commissioner Rumsey for a license to run a saloon at 4401 Virginia avenue. across the street from the new Grover Cleveland High School, in a building on which the Obert Brewing Co. has a payment of \$558.802 provided for by the lease. The contention of the brewer and the applicants for the license that the high school building, which has just been completed, is not a schoo held in it, and that, therefore, the law which prohibits a saloon within 300 fee of a school does not apply.

Lease for Two Years. It has been the ruling of the Excise Commissioner in the past that if a saloon is first on the ground and a school is opened within 300 feet of it, the saloon is permitted to stay until its liense expires. If a license is granted in this case the saloon would be permitted, under the usual practice, to continue until the end of the year and persons in the neighborhood are apprehensive that an attempt will be made to continue it three years, until the expiration of the rewery's lease.

The brewery has had a lease on the property for two years. A saloon was conducted there up to July 1 by Fred

contend, signatures of a majority of the tax payers of the block. Property owners of the neighborhood, ted by Eskridg ome at 4417 Alaska avenue, conten that the double block in which the saloon is sought to be located should be treated as one block and are to appear at Excise Commissioner Rumsey's office today to remonstrate against the issuance of the license.

Board Can't Remonstrate.

Votaw and others have sought the ald of the Board of Education, but have een informed that the board canno join in the remonstrance because it does not own property in the block. School officials, however, will call Commissioner Rumsey's attention to the fact that a school is to be opened in the new building in September, and ask him not to issue a license to a saloon across th

Wonderfal Values in Exchanged Victrolas at Aeolian Hall

7ITHIN the past few months we have taken a very large number of Victor-Victrolas in exchange for The Aeolian-Vocalion, The Aeolian Company's wonderful new Phonograph.

These Victrolas, though secondhand, are in thoroughly satisfactory condition. They have been gone over most carefully, repaired and regulated, where necessary, and repolished.

At the very low prices at which they are sold, indicated by the accompanying specimen value, they constitute unprecedented bargains in these well-known Talking Machines.

The Phonograph Department at Aeolian Hall is probably the most complete in the world. Here are magnificent display of Aeolian-Voculions and, as well, complete stocks of Columbia and other leading Phonographs. Also, all other leading Phonographs. Also all Columbia and other standard makes

A DOUBLE-HEADED WRONG.

The fact that a British commission is now visiting the Scandinavian countries and that these don, should not escape the attention of the American State Department. This commission is instructed to find out the exact needs of Denmark, Norway and Sweden in the way of supplies from the United States, so that Great Britain may hold our trade with those countries in check.

Of course, the British theory is that the great ncrease in commerce of late between this country and Scandinavia is explained by the transshipment of commodities to Germany, but this is merely an assumption. It is an assumption, moreover, which rests upon the assertion of a British right, regardless of law, to regulate or prohibit trade between neutrals in time of war. Nothing in the recent German proposal to permit the United States on certain conditions to operate a few ships in the war zone was more offensive than the policy thus outlined in London. Except that in the case of Germany, which confronted by the menace of "accidental" death, the principles on which the two belligerents are acting are precisely the same. Both invade neutral deny the sovereignty of independent nations. In the note which we sent to Great Britain on March 30, last, we entered an emphatic protest against unlawful interference with our ships and cargoes. We have had one or two expressions of opinion and explanations since then from the British Government, but these were not responsive to the note, which remains practically unanswered.

attention upon Germany, we believe that in the absence of further depredations upon American lives and commerce by submarines, we should maintain our position as boldly against Great Britain as against Germany. Hating, fearing and fighting each other, they are essentially in accord in denying us the use of the seas.

Germany's excuse for the use of the subma rines against merchantmen is that international law must give way to new weapons. Great Britain's excuse for blocking neutral ports is that the lives of Americans. Germany has declined when international law was established railroad transportation had not made trans-shipment to ground that the submarines and their crews enemy territory easy. Both, therefore, proclaim themselves above the law and take refuge ih expediency and necessity.

There is a double-headed wrong here with which we must deal severely and impartially. If we attack it in all of its phases we are the more likely to triumph over it. Indeed, since the injustice aimed sope with the problem of so many men out of at us is retaliatory as between Great Britain and Germany, it is probable that in no other way shall we be able to make ourselves heard and respected by both.

STREET CLEANERS' WAGES.

While a city should be run on business principles, as regards efficiency and economy, necessary work should be paid for on the basis that the city is not a private contractor who may be compelled by conditions to drive hard bargains with labor, but is in a special sense responsible for the welfare of its citizens who work for it. Every one of the city's workers should be treated with justice, as a valued public servant.

The practice of docking outdoor city employes on account of weather conditions is, of course, cased on the similar practice among private employers. But it is neither politic nor just. Why not give the street cleaner a weekly or monthly salary, payable in full, regardless of weather conditions, as long as he does his duties properly? He is as necessary to the city as the officials

back to 1865, serve to remind us how recent is our ity was at work all the time. It continued to excivilization.

Only a half-century ago, it appears, the capitalist carried his money in his saddlebags as he dynamic current stopped, gravity pulled the marode through the timber infested by outlaws. The terials towards the earth's center, as before. pioneer outlaw sprang from ambush, struck with an ax, buried the victim's body, or hauled it away somewhere in an ox cart, and buried the treasure, ed or annulled, and he will acquire an undying which was all in coin.

Capital and outlawry were at odds in those brave days. Nowadays everything is changed and it is often hard to tell who's who. Whether the intricacies of modern finance, screened by corporate charters, and, supervised by corporation lawyers, are preferable to the forthright pioneer nethods remains a question.

PEACE OMEN.

Of a gallant pugilist who has lately been edinew man. fying the local oult we read: "At the close of the of the ring and kissed the winner on the cheek."

Has the grape juice influence at last pervade uplifted and spiritualized even the prize ring? Does "a kiss for a smite" express the true genius of the whole people?

WHICH SHALL IT BE?

Doubtless the first St. Louis charter amendment

The city is trying to get rid of the flies, and the last few years there seems to be less flies an before, but I have seen places full of flies, and more flies around saloons than anywhere else. Biould think every saloon ought to have one or love fly traps. If every residence had a fly trap were no public utility corporations seeking to extend any support think it would be a good thing. Say each trap ught 10s flies a day, just think the heap of flies at would be caught.

The second plan, the one most easily adopted and in our opinion most meritorious, is to amend the city charter to reduce the size of the Board of Aldermen elected at large.

Inasmuch as the advocates of the first plan have already begun agitation in its behalf, it is perhaps not too early for the people of St. Louis o begin considering which plan they will prefer

SURMARINES CAN BE HUMANE.

Light is thrown on one of the principal points f the submarine controversy between the United States and Germany by the record of submarine warfare during the month of June. This period mbraces the time of the discussion between Washington and Berlin.

During the month 29 British, three French one Belgian and nine Russian ships were sunk has nothing but submarines at sea, we have been by German submarines. In every case where there was no attempt at resistance the submarine commanders warned the vessels and took precautions to enable the crews to leave the ships berights. Both violate the law of nations. Both fore attack with torpedoes. In several cases where the ships attempted escape unusual precautions were taken to give the crew opportunity o escape.

In no case were submarines lost on account of humane precautions.

The humane measures of submarine commanders were creditable to Germany. They indicated a perception and recognition of the moral judg-Making due allowance for the horror of the ment of mankind on inhuman warfare and of the Lusitania massacre, which for a season centered force of the United States' appeal in behalf of humanity and law.

> They showed also the fallacy of the German contention that warning before submarine attacks on merchant ships cannot be given.

The vital point in the American protest against German submarine methods of warfare on merchant ships emphasized the point of safeguards in accordance with law for passengers and crews. We asked guarantees against attacks without warning and the destruction of giving any guarantee of legal precautions on the would be endangered.

Since the American protest, however, Germany has complied with the law. If she continues to comply with law and the rules of humanity, with or without a guarantee, there will be no serious rupture of German relations with this country.

Doubtless, if the President stands firm for the protection of American ships and American citizens from lawless attack, Germany will avoid

In refusing in writing to mitigate the German submarine methods the German Government's main object apparently is to force the United States to attempt to break the British blockade of Germany.

SEE'S GRAVITATION THEORY.

It may be that Prof. See sees something that no other scientist or layman has seen heretofore in his study of the mystery of gravity or weight Newton did not unveil that mystery, but only saw, when he saw the apple fall, the law that governed its fall. And it is one thing to discover a scientific law and quite another thing to find the cause of the law's workings.

One fact that makes the average man doubt that See has seen anything really new and prov able about the theory connecting gravity with electricity is that, in all the experimenting with electric currents and magnetism, gravity, as a force, has not been even accidentally set at naught. The real proof of Harry Thaw's sanity is that hearing so many lawyers talk for so many years has WHAT THEY ARE UP AGAINST.

NE of those who agree with Dr. Simon that the boys are not getting enough soft jobs at the public expense is bland enough to wonder what they are up against. If he really would like to know, we will devote a small part of this very warm day to telling him, hoping to make it, as Roland Usher has a habit of saying, crystal clear. The boys are up against a growing disposition upon the part of the people to employ in their common business the same sort of help required in the business of an individual or a corporation. The boys hardly constitute that kind of help. It may be true that they work at elections, but our experience is that between elections they represent the lowest depths in inefficiency so far sounded. Civil service is a long and uphill fight, but it keeps right on after the boys year in and year out, and it will in the end oust the last inefficient from the municipal payroll.

The boys will have to go to work. There may be an occasional lapse in which they will think to see old times coming back, but it will be bitterly brief. The public service is like all service the world around—it requires trained workers. The boys are and seals to sing, but nobody can train the boys to work. They are for all popular and public uses the great army of inefficiency, the most amassing mass of inert matter in our industrial cosmos. The boss' bidding is the only thing they do well. They are for the most part cast out of that workaday world which is too proud and too skilled to lean on the world of spoils. They are the boys, always depend. ent upon a world of men. What they are up against is this busy world, and if they could happily merge with it and work with it we would all rejoice. When Dr. Simon says something should be done for the boys, his voice rattles spookily out of the past. The boys are already done for. Their name is Mud.

Our local golf, which is never very good, took an exceptionally bad turn the other day, when a St. Louis player knocked himself out with one of his own

City Counselor Holds That the Union Wage Ordinance Is Invalid.

An ordinance passed by the last Muni cipal Assembly providing that heads of all municipal departments must pay the nion scale of wages to mechanics and laborers employed on city work was declared invalid by City Counselor Daues in an opinion given to President Kinsey of the Board of Public Service yesterday.

Daues holds that the Municipal Assembly had no right to delegate to labor unions the power to fix or regulate the compensation to be paid to city workmen. He also holds the ordinance invalid because it was not approved by the Board of Estimate and Apportionment, as required by the new charter. It is a principle of law, Daues says, that a Government cannot surrender its owers to individuals.

The ordinance was based on a clause the new charter which says:
"Except in cases of emergency, not to exceed eight hours shall constitute a day's work for all mechanics and laocrers employed by the city and not less than the prevailing rate of wages

shall be paid." Daues rules that the "prevailing rate of wages" must be fixed by the city and not by the labor unions. If the city, through an ordinance, should fix the wage rates at the same figure as the union rates, thus making them the official prevailing rates, such action migth be valid, he holds, but the ordinance was defective in that it provided that union labor officials entirely outside the city's service should be asked to fix the wage scale to be paid to

city employes. Union labor officials. Daues says, might properly submit a scale of rates and ask that they be fixed by ordinance as the "prevailing rate of wages" to paid by the city.

CHIEF EXECUTIVE OF EAST ST. LOUIS

Mollman's Unflagging Activity Leads Him to Be Called "Working Mayor."

Mayor Mollman of East St. Louis, who, during his two months in office, as acquired the title of "the working Mayor," has mapped out a daily pro ram of work for himself which is as ollows:

6 a. m.-Take an automobile drive over the city to see what needs to be done and see that it is started.

8 a. m.-Breakfast. 9 a. m.-Arrive at the city hall and at

12 m.-Lunch. 1 p. m.-Return to office. 2 p. m.-Confer with department heads. 3 to 5 p. m.-Attend to correspondence

and receive callers. 6 p. m.-Dinner. 7 to 10 p. m.-Attend committee meet-

Puts Weed Cutters to Work. Mayor Mollman discovered on his early norning ride yesterday that many sidewalks were lined with weeds. He drove scythes, found six men who wanted to in time for the beginning of the seawork, and hauled the men and scythes to different points in the city where he vanted the weeds cut. Then he told the nen how he wanted the job done, and added that he would drop around tomorrow to inspect it, and if it wasn't done he way he ordered, he would "fire evrybody working."

When the engineering force had trou ble with the pumps at the outlet sewer station a week ago Mayor Mollman got out of bed at midnight and went down

ters in the police station was the Mayr's own idea, and he superintende nost of the work. He denounced as barbarous the system of keeping men and women in the same cellroom, and said he would stand behind the improvements with his personal credit if the city couldn't pay the bills.

During the recent mayoralty campaign Mayor Chamberlin sarcastically re-marked in a speech that Mollman was good harnessmaker. Mollman heard of the statement, took it up and made

TUBERCULOSIS WORK NEEDS AID Present Funds of Society Will Be

The St. Louis Society for the Relief and Prevention of Tuberculosis has issued an appeal for funds to continue its work during the summer. Charles P. Pettus, treasurer of the organization, at meeting of the Finance Committee said that work could not be continued after another 30 days if additional funds were not available. The organization has 10 departments, and yesterday de cided to eliminate several of them so that the more important portions of the work could be kept up.

Reports of the Finance Committee show the society is paying for the meals of 139 out of 175 children attending the open-air schools, is taking entire care of more than 30 persons at the Night and Day Camp, and its nurses are visiting more than 1200 consumptives in their homes. The society has headquarters in the Board of Education building, Ninth and Locust streets. Checks should be made payable to Charles P. Pettus.

Club Is Fattening on Home Runs Over a Close Right-Field Fence, but the Team Is Expected to Slip When Next Road Trip Begins-Hug's Men Close Up.

By W. J. O'Connor.

T HAT close right-field fence in the Philadelphia National League park is a barrier behind which Pat Moran's Phils now are fighting to hold first place in the good old parent body go-as-you-please. It was two home runs over the garden wall, yesterday, that spelled the downfall of Lee Meadows and pushed the Cards into fourth place, two and one-half games behind the pacemakers. The score was 6-3 ferninst Hug's mob.

But fortunately the Phils must soon ercised over the Phils' present spurt. hit the lonesome trail through the West, They figure that the batting efficiency and such club-wielders as Bancroft and of Moran's team will be greatly reduced Luderus will not get quite so many when the club gets away from its own

circuit swipes. The right-field wall in the Philis' park is so close in that Tommy Long could stand at home plate and heave a ball out of the park, and the world knows that Tommy Long hasn't much of a whip.

But it is a trite truism that this short field is a great boon to free-hitters like Cravath, Luderus, Bancroft, Becker and Niehoff, who fatten up their averages by bumping doubles off and homers over this fence. One might argue that the fence is just as close when the Cards are at bat, but, unfortunately, the Cards don't play as many games at Philadelphia as the Phils do. NO FUNDS RAISED Feds Threaten to Place Teams in Four More Major League Locations TO SEND ATHLETES CHICAGO, July 15.

NEW territory will be invaded by the Federal League next sea-son, it was announced today by James A. Glimore, president of the organization, in confirming the re-port that the league's headquarters would be moved from Chicago to New York City within the next two weeks. TO CHICAGO TESTS Although Irwin Mahl, the Columbian A. C. aprinter, and John Probst, the long-distance star, qualified for the Western District championships at Chicago on Saturday, at Francis Field last weak, the local officials of the A. A. U. have not yet made up the sum necessary to send the pair to the Windy City. This information was obtained last night from Fred Ward, chairman of the Ragistration Committee of the A. A. U. and one of the committee of three who selected Mahl and Probst to represent St. Louis in the Western tryouts. "The national body of the A. A. U. has spent something like \$4000 to hold the Eastern tryouts and has given about \$3000 more to promote those in Chicago maxt Saturday and it is up to the local officials to make up the expenses of Mahl and Probst for the Chicago trip," said Ward. "I am after the A. A. U officials at present and hope to reach them some time tomorrow. Without a doubt they will make up the expenses. If not, then it is just possible that several men interested in athletes will get together and make up the purse and not deprive the two athletes of the chance to show their worth against the stars of the West in the Windy City."

JONES AGREES TO

Central Tennis Champion De clines to Retain His Honors Through Rival's Default.

Roland M. Hoerr, yesterday afternoon refused to accept the singles champion-ship of the Central State Tennis Association by default when Drummond Jones, his opponent in the finals match of the tourney, failed to appear at the Triple A courts at 3:30 c'clock, the time at which the match was to have started. Drummond Jones said at his office this morning that he thought he would be in fit condition to play the match on Saturday afternoon. He stated that he had received a letter from the Executive Committee of the Central States Tennis Association asking him to set a date for the match. He said that he had answered them by naming Saturday.

Jones said that he was chagrined that the incident came up and "pproved of Hoerr's action by stating that he was a good sportsman. at which the match was to have started.

Hoerr's action by stating that he was a good sportsman.

Jones stated early Wednesday that he could not play the match as scheduled, owing to the fact that his hands and feet were blistered from the preceding day's play. He claimed that if necessary he would forfeit the match, but also stated that should he lose by default he would drop tennis and the Triple A club for good.

drop tennis and the Triple A club for good.

When Jones failed to appear at the appointed time. Hoerr, Secretary Ross of the Triple A club and R. M. Wilson, chairman of the Executive Committee of the Central States Association, went into session. Hoerr was offered the match by default, as the rules of the association stipulate that should one contestant fail to appear for a match, his opponent is awarded the contest.

Hoerr, however, refused to accept, the said: "Jones is a friend of mine, and we have played so long together I could not accept the match. I know that he wants another chance at me, and I am willing to play film as soon as he is in shape. I do feel, however, that condition is one of the main points in tennis."

Earlier in the day Hoerr had stated that he would accept the forfeiture.

"Sneakers" Cause Blisters.

Jones attributes the blisters on his feet to a new pair of "sneakers" that he tried to break in during the semi-final match with Paul Darrough of oklahoma. At the end of the third set Jones had to retire and change the footwear to a pair of old tennis slippers. He showed two blisters on each foot that gave the appearance of extreme irritation. Jones said that tennis Champion Falls Down.

R. Norris Williams II of Harvard is evidently not up to his best game, in the East vs. West clashes which have been the feature of the Panama-Pacific tennis championships. Clarence Griffin yesterday eliminated him from the event, 6—3, 6—4, 6—1. Williams has been considered a better player than Griffin, when ready. The defeat takes the edge off the struggle between the Eastern and Western players, since all of the Atlantic Coast stars have been put out of the struggle between the Eastern and Western players, since all of the Atlantic Coast stars have been put out of the struggle between McLoughlin and National Champion Williams, so much looked forward to. It was conceded to be a certainty this pair would survive the finals. The Western players, with the advantage of year-round weather conditions, are presumed to be several weeks ahead of the Eastern team. The members of the latter, however, had the benefit of play in the clay court championships at Pittsburg, where it was conceded all were in good shape.

In fact, after that event, Williams is quoted as saying:

"I feel confident my team will do much better than seems possible to many persons. I am greatly impressed with Washburn. His game is going well and I thisk he will de plenting the country is a single to the country is a single to the country is a single to be responsible to the new have been the feature of the latter two months to get it does take two months to get the condition Anyone ready to an condition? pick, for Wasnburn was about the first member of the Eastern outfit That this test will not be the only meeting of East and West is all but guaranteed by the statement that McLoughlin, Murray, Griffin, Long and Dundy will make the trip to New York to take part in the national championships at Forest Hills, L. Stecker Stuck Chicago Sports.

THE wrestling harpoon has again been heaved into Chicago, the home Lack of Hitting Punch Since Inof the Whales as well as of certain species of the sucker family. Some years ago Chicago promoters landed about \$87,000 worth of the latter. This time the yield was \$75,000.

neavily since the decision last year to allow separate cash prizes for the professionals, even though the open tournaments be won by amateurs. Otherwise, with Jerry Travers beating them soundly, there might be considerably fewer represented at the coming Western "open" event, which this year takes place at Gien Oak Country Club, Gien Ellyn, Ill., a suburb of Chicago, Aug. 18.

The "pros" will have \$728 in cash to divide in the Western

tourney, no matter if every amn-teur entered finishes ahead of

the first professional.

Five cash awards from \$300 down to \$50 will be given the first five professionals. This gives the visiting player a fair chance to make his expenses, if he is on his best game.

time the yield was \$75,000.

The first success was achieved with the Hackenschmidt-Gotch wreatling flasco as bait. The second lure was the Joe Stecker-Charles Cutler match, which recently took place at Omaha.

The difference between the two occasions was the fact that the mat fans got a run for their money—as far as is known—when Stecker downed the sturdy Chicagoan with his effective "scissors" hold.

In mumerically in proportion to population. Youngsters between 17 and 20 who are making headway at the game are few. Therefore, this city will hardly be represented at the junior chasplonally of the Western Golf Association, at Midothian Country Club, near Chicago, Aug. 4 unless it be by Morgan Nugent. If he can qualify as a 19-year-old left its prize.

As for its winner. Missouri may supply one in the person of J. A. Cruikshank Jr. of Hannibal, the 18-year-old lad who made such a fine showing in the State tournament here.

A junior city golf champton-ship, by furnishing some incentive to the younger element,

ter of Martin Delaney, whose depart-ure from this city several years ago caused a local hiatus in athletics: J. E. Wray, Sports Editor Post- Dis-patch:

J. E. Wray. Sports Editor Post- Dispatch:
Friend Ed.—Referring to your recent communication. I intended to say in my wire that Joe Coffey, matchmaker for the Chicago Athletic Association, had offered \$25,000 for a match between Gotch and Stecker.
Gotch made the statement tin, he did not believe Stecker could do the statement that wonderful wester. His main hold is a scissors, which seems to be all heneds. The followers of wrestling in and about Chicago did not believe that Stecker could du not believe that Stecker could up the scissors on Cutter, owing to his size and strength, and all bet that way on the match without exception. Some estimate the losses in Chicago size to be in the neighborhood of \$75,000.

The farmers in Stecker's district mortgaged their farms and did not hesitate to bet 1 to 10 6 and in many cases 2 to 1,000.

And It's SOME Mystery.

Among the little riddles unsolved to date we may classify that of the mystery, "Why did Gotch refuse \$25,000 to meet Stecker?" The money seems real pick-up stuff, for Gotch knows Stecker to a hair. In .fact, Stecker was, in a way, a protege of Gotch and Farmer Burns. The latter is said to be responsible for the new near-champion's ability to shine.

fielder's Illness Is Evident in Every Game.

Unless a hitting punch is developed in a short time Fielder Jones' Terriers will have a hard time sticking with the leaders in the Federal League pennant race. At present Jones' men are in the thick of a batting slump and yesterday dropped their second straight game to the Whales, 4-1, thereby dropping into second place, while Tinker's outfit took first place. About 1000 fans were present. Charley Deal's absence is being feit by the club. Al. Bridwell, the veteran. Charley Deal's absence is being felt by the club. Al Bridwell, the veteran, is putting up a great fielding game at the far corner, but he is not hitting. Deal, before he became sick, was the only 300 batter the club owned. Bridwell, on the other hand, is swatting around .100.

In yesterday's clash the lack of a "hitting punch" was evident on several occasions. For instance:

In the first inning, with Vaughn on third and Borton on second, Ward Miller fanned.

Beb Groom started the third

Bob Groom started the third with a single, but Tobin, Vaughn and Kirby failed to bring him

In the seventh, Groom was on third and Tobia on second, but Vaughn sent a little roller to

Johnson came up in the eighth with runners on second and third, but failed to produce, sending a long liner to Zwilling.

It was the same the day before Plank should have won his game, but his mates could not hit Claude Hendrix in the pinches. The only run for the locals was a gift. Vaughn was safe on Smith's error in the sixth and advanced on a wild pitch. Kirby's bingle counted him.

WHEN YOU DRIVE A RE-NEWED AND REPAINTED

You experience the pride of Cadillac ownership just as though you had purchased the most up-to-the-minute Cadillac. You are as certain of Cadilac satisfaction, and we are as much interested in your getting it as if you had boughe a new car. So no matter what you have in mind to spend, put it into Cadillac satisfaction and you'll get your money's worth.

"ASK ANYBODY." AUTOMOBILE CO.

OF ST. LOUIS Lindell 567. Delmar 4400.

The automobile buyer that must economize can get far greater value for each dollar expended by purchasing a used car from us than he can by buying a cheaper new car. \$750 Will Buy a fairly good while the same amount will buy a high-grade used car that cost \$2000 new; has electric stater and lights and is in perfect order and run less than ten per cent of its normal life.

The Difference in satisfaction higher-priced car is worth a great deal, and the final cost will be less by far. We Guarantee every nsed that is worthy of a guarantee, and those that are not we sell as they are for what they are. We never misrepresent a used car, and are just as careful of reputation when selling used cars as we are when selling Hudsons.

Confidence is the basis of owner of a Hudson car how we treat our customers, and then come and talk the matter over before you buy a car. A Big Stock of goods is necessivolume of business in any line, and we have a big stock of used cars. They are constantly changing, but we always have a splendid selection.

From \$250 to \$1350 in range of prices, and we can give money at these prices than you can get by purchasing a new car at anywhere near the same prica. Come in and see us.

OU can be glad your husband isn' Mrs. Tickett during the course of interest to wives was under discussion 'I sometimes feel that an introduction necessary when we meet, for i see "But he makes lots of money," said

"I'd rather have less and feel I had a husband and not a lodger," said Mrs. Tickett—"a lodger that pays his board regularly and pays sufficiently to sup-port the house in good style, but never gets home till midnight, and then has to be at the theater at 10."

And so when Mrs. Jarr got home

and Mr. Jarr arrived from the office not so very late, Mrs. Jarr had resolved that she would realize her blessings. "I was talking to Mrs. Tickett at Mrs. Stryver's today. I think she's just the etest little woman!" said Mrs. Jarr. or thing! Aer husband is stuck at old theater all day long and all ht long, and she hardly sees him at and that's the way it has been for

Mr. Jarr was thinking about some of coffee, probably, for he passed up his cup and did not answer.

"Yes," Mrs. Jarr went on, "she was

saying that when the theatrical seaso was over it really means very little to her, for the few weeks the theater is closed before rehearsals begin and things that demand Mr. Tickett's at-tention bring him back, they go away to some summer resort, and as a result

"S'pose so," said Mr. Jarr.
"And I was just thinking." Mrs. Jarr rattled on, "that even if we do not have some things they have, at least we do see each other and can sit down and have long talks with each other, don't

you think so?"
"Uh huh," said Mr. Jarr. ("Uh huh," eaning an answer in the affirmative.)
"It's knowing things like that that makes people contented with their lot." you do exasperate me sometimes when you don't come home and I am here alone waiting for you; but as bad as that is, it isn't as bad as it would be if you were a theatrical manager or a traveling man, especially a traveling man.
